

LET'S REBUILD COMMUNITY

1

Our non-profit organization was formed with the purpose of helping seniors, veterans and persons with disabilities who are not able to paint their own homes or keep up with landscaping.

2

We have volunteer teams that will paint the exterior of your home over two weekends this summer (July 29 & August 12). These dates might be adjusted if needed due to rain.

3

Volunteers will also do landscaping touch-ups if needed as time permits, during the two work days. We will also address any significant safety concerns identified outside of the house during the application process.

4

This program is being made possible through the work of volunteers as well as funding for materials and professional services from local community organizations.

5

Our goal is the help you maintain your home, a very important asset! The cost to you, will be \$100 if your home is selected during the application process.

6

Four homes will be selected for this program. If you are selected, we will visit your home to estimate what will be within the program's capacity to address.

Please call Bill Binroth if you have any question (906) 370-9965

LET'S REBUILD COMMUNITY

HOMEOWNER APPLICATION

1
